Policy Document on Environment and Energy Usage

The Environment and Energy usage Policy of Ananda Chandra College is to manage energy in such a systematic way so as to minimize its impact on the environment. This environment and energy policy is binding for all the components of the institution and applies to all its stakeholders and to the various activities undertaken by the institution. It will help to improve efficiency and create environmental awareness among all, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage.

The College Environment Committee (formed in GB Meeting dt. 12/05/2022) and Eco Club will devote to the cause of environmental awareness, to undertake green initiatives, and to conduct green literacy programmes within and beyond the college campus. The following policies are formulated on the basis of the recommendations of the Green Audit Committee visited the College campus for Green Audit/Environment Audit and Energy Usage Monitoring on 11.03.2024.

Policies:

1. To assess energy usage in the college periodically
2. To sign formal Agreement/MoUs with Jalpaiguri Municipality
3. To take control measures to reduce the absolute amount of wastes those are produced from the departments
4. To manage food-wastes from Hostels, and the fallen dead leaves from the garden in the composting/cistern Recycle
5. To monitor the solid waste management undertaken in the college

6. To install renewable and new sources of carbon-neutral electricity
7. To install LED bulbs in the entire campus to save energy
8. To take measures in safe disposal of electrical wastes, printer cartridges, etc., using proper methods
9. To take proper initiatives to manage the chemical wastes
10. To check and repair the pipelines in the college on a regular basis to reduce wastage of water. To create awareness among all stakeholders about lesser wastage and judicious use of water
11. To maintain and develop the Rainwater harvesting unit
12. To undertake tree plantation drive
13. To take all initiatives to maintain regional biodiversity on the campus
14. To make a plastic-free campus
15. To strengthen our employees' and students' environmental knowledge and skills in order to improve our own environmental performance
16. To offer opportunities for employees and students to engage in initiatives that contribute to environmental protection.
17. To conduct Green/Environment Audit and Energy Audit annually.
18. To maintain a 'Green Budget' for implementation of policies.
