Remarks by Chairman, UG BOS, if any

UG BOS Meeting Reference Number:

Date:

Course Code: POOBSEC224

Course Name: Financial Literacy and Banking

Brief Course Description:

A financial literacy and banking course equips students with essential knowledge to make informed financial decisions. It covers budgeting, saving, and investing basics, helping course participants understand income, expenses, and financial planning. The course explains banking fundamentals, including different types of accounts, online banking, and understanding bank statements. It also delves into credit, loans, and managing debt, highlighting the importance of credit scores. Participants learn about various investment options, risk management, and diversification. Additionally, the course addresses financial protection through insurance and identity theft prevention, alongside strategies for setting and achieving financial goals.

Prerequisite(s) and/or Note(s):

The elementary numeracy and computer skills are prerequisites for this course. and an elementary knowledge of banking and investment No advanced financial knowledge or professional experience is required, making the course suitable for beginners.

Course Objectives:

Knowledge acquired:

- (1) Create awareness in students about the need to possess financial literacy education.
- (2) Familiarity with different aspects of financial literacy such as savings, investment, taxation, and insurance
- (2) Understand the relevance and process of financial planning to promote financial well-being

Skills gained:

- (1) Develop expertise for personal financial planning
- 2) Ability to analyse banking and insurance products
- (3) Develop proficiency in understanding financial market operation and functioning

Competency Developed:

On completing the course, the students will be able to understand the importance of financial literacy and prepare financial plans and budgets at the micro level (for persons or families). The course will help to develop the knowledge required for analyzing investing in banking, insurance and capital market products to help promote financial well-being. Students will develop a good proficiency to provide advice on investment options, risk management, and diversification of financial products.
